Cong. Ron Packard
 Wash. □ □ ○ ○ □

Honorable Ron Packard,

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

Police said to aid spying on political groups

Anti-Defamation League pays for inforeceived from cops

By Dennis J. Opatrny and Scott Winokur of the Exward staff

A small group of undercover operatives throughout the nation is being paid by the Anti-Defamation League of the B'nai B'rith to spy on pro-Palestinian, black nationalist and white supremacist groups, according to a San Francisco law enforcement official.

The operatives rely on local police and sheriff's deputies to provide access to confidential law enforcement and motor vehicle information, in probable violation of criminal law, said the official, who spoke on condition of anonymity,

The official is close to the investigation of suspected illegal domestic spying by ex-San Francisco police Officer Tom Gerard and paid ADL informant Roy Bullock, a San Francisco art dealer.

"There's probably six or eight Roy Bullocks" throughout the country, the official said.

"This Gerard-Bullock thing is the tip of the iceberg — this is going on nationwide," another law enforcement official said.

Capt. John Willett of the Police. Department's special investigations division said officers examining evidence in the case already had discovered files from up to 20 police departments and other law enforcement agencies throughout the state, including the California Department of Corrections and

The ADL acknowledges collecting and disseminating information on individuals and organizations, but claims such surveillance is legal and consistent with its mission: "to counteract all facets of bigotry and prejudice."

ADL attorney Barbara Wahl said Monday that the organization made "no bones" about getting information "from a variety of places, including individuals."

"If the implication is that there is anything improper about what ADL has done," Wahl said, referring to the Gerard-Bullock case, "we flatly deny that."

But ADL critics in the Arab American and Jewish American communities charge that — notwithstanding the organization's longtime record of opposition to patent bigotry — it has lost the ability to distinguish between justifiable and unjustifiable investigative techniques and targets.

"And while they have the 'right' to infiltrate a pro-Palestinian group, it shows a lack of respect for freedom of assembly."

Was S.F. an ADL spy hub?

Gerard, 50, and Bullock, 58, are suspected of gathering confidential information from law enforcement sources illegally from 1985 to 1992. Bullock was paid by the ADL through an unidentified Los Angeles law firm. Neither man has been charged; both deny wrongdoing.

Gerard fled to the Philippines after questioning by the FBL The United States and the Philippines San Francisco District Attorney Arlo Smith said in an interview Friday that, whatever the scope of ADL information gathering proves to be, it was already evident that Gerard and Bullock monitored a wide range of groups from their base in San Francisco.

"This may well have been the center of it; it's clear Roy Bullock was serving the whole area," Smith said. He declined to elaborate.

Some 12,000 computerized files were seized Dec. 10 in searches of ADL offices in San Francisco and Los Angeles, Gerard's houseboat and storage locker in Sausalito and Bullock's Castro District apartment. Most of the material originated with Bullock, according to authorities.

The Los Angeles Times reported that half the names in evidence were those of Southern Californians, but San Francisco officials would not confirm that figure.

"The people live all over California and around the Western states; only a few hundred came from San Francisco," said Assistant District heading the investigation.

At least four were journalists. They worked for Mother Jones magazine, the Chronicle, the Los Angeles Times and the Philadelphia Inquirer.

Honorable Hank Brown U.S. Senator Washington, D. C. 20510-0604 TDC

Dear Senator Brown:

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, indepth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department SFPD are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League ADL OF B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article I have enclosed.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I AM URGING YOU TO CALL FOR A FULL-DRESS CONGRESSIONAL INQUIRY INTO THIS SCANDAL.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

Dear Senator Roth

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

April 7, 1993

Good morning,

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith in collaboration with the ADL's contacts in police departments around the country. (Please see the Examiner article reproduction that I have enclosed).

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in it's possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in the ADL files around this country ???

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national congressional inquiry be undertaken to get to the bottom of this scandal.

Dear SPOTLIGHT Reader:

For years patriots have known that the Anti-Defamation League (ADL) of B'nai B'rith has been spying on honest, law-abiding, patriotic Americans.

Now, at last, the truth has come out.

The ADL spy scandal in San Francisco The SPOTLIGHT has told you about may bring the ADL to its knees.

Bits and pieces of the story have actually been published in newspapers from coast to coast.

And although our file on the ADL is enormous, the whole thing is even bigger and more outrageous than we realized.

Can you imagine it?

FBI agents, along with San Francisco's finest, raided the offices of the ADL in San Francisco and in Los Angeles.

What they discovered shocked even these hardened law enforcement officials.

Not only had the ADL stolen classified police intelligence data, but the ADL-, had also assembled a "watch list" containing the names of some 12,000 Americans from all parts of this country.

According to the Los Angeles Times, it wasn't just suspected critics of Israel who were being spied on by the ADL's paid informant, a shadowy figure named Roy Bullock.

Even Irish-Americans were being watched for possible ties to the Irish Republican Army.

And remember-the 12,000 names on the ADL list were only from the ADL offices in just two cities in California.

According to a source quoted on February 26 by the Los Angeles Times, "The ADL is running this all over the country."

The ADL has offices in all of the major cities and contacts in thousands of small towns and cities in every state in the union.

In many of those same towns and cities, the ADL has sought to penetrate the local police agencies-probably in your home town. ALL INTOCHATION CONTAINED. HEREIN IS UNCLASSIFIED

Everything that the ADL has in its own files is also being sent to the headquarters of Israel's secret police, the Mossad.

I'm angry about this, and you should be, too.

That's why we need to take action.

We need to DEMAND that Congress launch a full-dress inquiry into this outrageous NATIONAL SPY SCANDAL.

The Honorable Nancy L. Kassebaum 302 Russel Senate Office Bldg. Washington, D.C. 20510

12 April 1993

Dear Senator Kassebaum:

I was recently shocked by a news article appearing on CNN Headline News. It appears the Anti-Defamation League of B'nai B'rith has been spying on tens of thousands, if not more, Americans. One of its methods is to illegally obtain classified police records to assemble dossiers on U.S. citizens. They then pass this information on to foreign intelligence services.

A recent police raid on Los Angeles and San Francisco offices of the ADL uncovered illegally acquired files from over twenty California police departments. It was also discovered the ADL had files on over 12,000 individual Americans. And this is just from its offices in two cities!

CNN indicated the ADL is operating spy networks out of St. Louis and Atlanta as well. This may just be the tip of the iceberg. This indicates the ADL, a private organization answerable to no elected official, is infiltrating police departments all over the country in order to obtain data to smear or intimidate people. I feel this is obscene!

Therefore, I urge you, as my senator, to call for a formal Congressional investigation of this matter to determine the truth of what the ADL is doing in our country. Please advise me on what action you plan to take to bring an end to ADL spying and disregard for American freedoms and civil rights.

	Sincerely,

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

Kern schools prodded to get anti-discrimination program

By LEONEL MARTINEZ Californian stell writer

A program put together by the Anti-Defamation League of Southern California is being touted as among the best weapons to battle discrimination.

Kern County Human Relations Commission President Richard Prado told Kern High School District board members at a meeting Monday that the commission's 11 members unanimously approved a resolution of support for the program Sept. 10 and urged its incorporation into the schools' curriculum. Administrators said they will consider it.

"You have your hate crimes, your prejudice, your racist attitudes that still prevail in this county," Commission President Richard Prado said.

"You have the KKK that recruits here occasionally. Face it, if we do nothing, it's not going to get any better."

Dubbed "A World of Difference," the program trains administrators, teachers, students and parents to avoid racial, religious and ethnic prejudice and discrimination, Prado said.

Commission members mailed about 200 letters to Kern schools Sept. 17 urging they implement it. Only one school responded and eventually implemented it, Prado said.

Among the steps urged by "A World of Difference" is direct intervention by the teacher when students show prejudicial attitudes in the classroom.

"Those teachers that hear racial slurs don't do anything," Prado said. "That's when they need to intervene. Hopefully, the program will show how to deal with it."

The program also deals with more subtle forms of discrimination. A copy of its guidelines for communication suggests people identify others by race or ethnic origin only when relevant.

The phrase "Jesse Jackson, celebrated black Democratic leader," for example, should be as unacceptable as "Michael Dukakis, noted white Massachusetts governor," the guidelines say.

The guidelines also warn against the implications of what it calls "color-symbolic words" in phrases such as "black reputation" and "yellow coward."

Warner Brooks, the district's associate superintendent in charge of instruction, said administrators will review "A World of Difference" carefully and compare it with portions of the current curriculum.

"It has to be of substance," he said. "Everybody wants to see the world stop prejudice but if you don't have the right materials, you can do more harm than good."

Dear Senatar Specter,

.433

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Dear Senator Specter;

Are you aware of the very serious violations of the civil rights of perhaps tens of thousands of Americans? I think it demands an immediate, in-depth investigation by Congress. The San Francisco Examiner has reported (March 9, 1993) that the FBI and the San Francisco Police Department are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country.

The FBI and SFPD raided the ADL's Los Angeles offices and discovered that the ADL had in its possession illegally acquired files taken from more than 20 police departments in the state of California alone. The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many more thousands of names are in ADL files around the country? This sounds like the kind of thing that happens in a police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this

operation on a national basis demands that a national Congressional inquiry be started at once to get to the bottom of this outrage.

I am urging you to call for a full scale Congressional investigation into this scandal. Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

Dear

Just a quick note along with this book and post card for your use.

Received 6 more copies of MOTION from Leona, also copy of letter she received from Capt.]in MO, was very nice and very interesting. Also an update from his wife, thought you might like to know I am being informed. I also have received several copies of the "THE EAGLE" from the publisher, nice of him to mail them to me, will write and thank him.

LIBERTY LOBBY sent me copies of a letter about the ADL which I am having reproduced so I can send to my Senators & Congressman, requesting a formal Congressional Investigation of the ADL spy scandal, very shocking of the illegal actions & operations taking place in this country.

Also I noticed in the SPOTLIGHT (April 12 issue) that a person by name of Kirby Ferris has also written a book "A mountain of lies" about the Ruby Ridge Shootout, and Randy Weaver, Available from Liberty Library (\$10:00) I don't plan to order it. (over 2 page article in the SPOTLIGHT.

I am sure with all the illegal spying and actions by various criminals within this Rotten System that one of them will probably photocopy this letter to use for their own criminal actions & use.

Let it be known: to all concerned, that photocopies of this letter have been sent to my Congressman and also to my two Senators from Texas.

Too Bad that honest true citizens in this country have to tolerate such gross illegal activities by persons hired by "We The People" ALL INFORMATION CONTAINED and their wages paid by our Tax dollars. Fore & Paujers

Congressman Volomer: APR 28 1000 Wooved your Influence of the see if my name appears on any of these of lists.

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

Dear Senator Kassebaum:

There is an extremely serious and dangerous violation of the civil rights of perhaps tens of thousands of American Citizens which demands an immediate and in-depth Congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American Citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL; s contacts in police departments around the country.

THE FBI AND THE SFPD RAIDED THE ADL'S OFFICES IN LOS ANGELES AND SAN FRANCISCO AND DISCOVERED THAT THE ADL HAD IN ITS POSSESSION ILLEGALLY ACQUIRED FILES TAKEN FROM MORE THAN TWENTY POLICE DEPARTMENTS IN THE STATE OF CALIFORNIA ALONE.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

THERE ARE NAMES OF SOME 12,000 AMERICAN CITIZENS IN THE ADL'S FILES WHICH ARE NOW IN THE CUSTODY OF THE SFPD ALONE. HOW MANY HUNDRED THOUSAND NAMES ARE IN THE ADL'S FILES AROUND THIS COUNTRY?

This sounds like the kind of thing which happens in a totalitarian police state. Is this what the United States of American has become?

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a Congressional inquiry be undertaken to get to the bottom of this scandal!

I URGE YOU TO CALL FOR A FULL-SCALE CONGRESSIONAL INQUIRY INTO THIS SCANDAL!

Please advise me as to what immediate action you intend to take to end this massive violation of the civil Liberties of American Citizens.

Sour constituents expressed concern over allegations of an illegal surveillance of American citizens by the Anti-Defamation League of B'nai B'rith using information provided by its contacts in law enforcement agencies.

Based on the considerable press coverage this issue has received, the concerns expressed by your constituents are certainly understandable. The San Francisco Police Department has been most cooperative in this investigation. Congressman Buck McKeon House Office Building Washington DC 20515

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL"s contacts in police departments around the country.

The FBI and the SFPD raided the ADL"s offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the $\dot{A}DL^{\,\iota}s$ illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundreds of thousands of names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation an antional basis demands that a <u>national Congressional inquiry</u> be undertaken to get to the bottom of this scandal!

I am urging you to call for a full-dress Congressional inquiry into this scandal!

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

Sincerely

On August 2nd, Congressman McKeon wrote to the Department of Justice on your behalf, and that correspondence was referred to the FBI for reply. You expressed concern over allegations of an illegal surveillance of American citizens by the Anti-Defamation League of B'nai B'rith using information provided by its contacts in law enforcement agencies.

Based on the considerable press coverage this issue has received, your concerns are certainly understandable. the FBI, as a matter of policy, will not disclose information which could compromise a pending investigation, you may be assured that all aspects of this case are being explored. San Francisco Police Department has been most cooperative in this investigation. With its assistance, the FBI will actively seek prosecution of any individuals or any enterprise discovered to be involved in illegal activity in violation of Federal statutes.

I hope this response will alleviate your concerns.

Sir:

I am a voting citizen in your district and am appalled at what I have read in the localnewspapers concerning the covert intelligence gathering by the Jewish Organization, called
The Anti-Defamation League, involving Law Enforcement Agencies and paid Police Spies. It seems
this agency and others raised hell about spying on private citizens by the J.Egdar Hoover (FBI.) and
LAPD. in the past, but seem to think its okay when they do it! What really gets my goat as an
American Citizen, is the fact that this information was then shared with a foreign (SPY) Agency
the ISraeli Mossad! As an Italian American, I was always under the impression that my allegience
was to The United States of America first, despite my parents cultural heritage. I have had relatives
that died fighting the Fascists in Italy in the service of the United States! I do suspect the
patriotic feelings of the above mentioned group and their followers, under the circumstance.
I realize the amount of political clout some people seem to have in Congress, But I hope that there
are still some persons up their that have the guts, to call for a complete Congressional Investigation
in this matter.

We do not need a JENISH-STASI in this country and for that matter any other kind!

Called 8/25/93

Dear Senator Dole:

I was recently shocked by a news article appearing on CNN Headline News. It appears the Anti-Defamation League of B'nai B'rith has been spying on tens of thousands, if not more, Americans. One of its methods is to illegally obtain classified police records to assemble dossiers on U.S. citizens. They then pass this information on to foreign intelligence services.

A recent police raid on Los Angeles and San Francisco offices of the ADL uncovered illegally acquired files from over twenty California police departments. It was also discovered the ADL had files on over 12,000 individual Americans. And this is just from its offices in two cities!

CNN indicated the ADL is operating spy networks out of St. Louis and Atlanta as well. This may just be the tip of the iceberg. This indicates the ADL, a private organization answerable to no elected official, is infiltrating police departments all over the country in order to obtain data to smear or intimidate people. I feel this is obscene!

Therefore, I urge you, as my senator, to call for a formal Congressional investigation of this matter to determine the truth of what the ADL is doing in our country. Please advise me on what action you plan to take to bring an end to ADL spying and disregard for American freedoms and civil rights.

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.

| Sincerely, |  |  |  |  |

Hon. Janet Reno Attorney General Department of Justice 10th Street and Constitution Avenue, NW Washington, D.C. 20530

Dear Attorney General Reno:

You may remember me from my days as an attorney with the Florida Attorney General's Criminal Appeals Division. I have always had a high regard for your work, and I hope that you will personally see this letter.

I am writing to urge you not to take any action aimed at deporting or otherwise further punishing John Demjanjuk. An innocent man has just spent seven years in a jail in a foreign country on false, fabricated charges...not to mention the time he was subjected to proceedings in this country to deprive him of his citizenship despite his long and exemplary residence in the United States. I know what I am talking about because when I practiced law in Washington, D.C. during the 1980s I was contacted by John Demjanujuk's son and studied some of the "evidence" which was used as the basis for extradicting him to Israel. A child could have seen that the evidence was falsified, just as was the evidence in the somewhat earlier but very similar case of Frank Walus, who was more fortunate in finally having his innocence proved before any deportation occurred. Affidavits in both cases were transparently mass-produced, and the "eyewitnesses" would have obviously identified an elephant as the alleged criminal if an elephant had been put in front of them.

I'm sure that as a very experienced attorney you can see through this entire "Nazi-hunting" business as well as I can. The object is to find victims, for publicity and financial purposes, and nothing more. It obviously does not matter to the "hunters" whether the victims are actually guilty of the crimes alleged, or even whether the crimes occurred, as illustrated by the Demjanjuk and Walus cases, and I'm sure many others.

The worst part of this is that an office of the United States government, headed by a man named Ryan who is publicized as "the government's top Nazi-hunter", has abetted these unconscionable and probably criminal activities. (I'm sorry that I can't remember Ryan's first name or the name of his office, but I'm sure you are familiar with it.) As an attorney, I learned of that office's deliberate efforts to "lose" or "overlook" exculpatory evidence at the time of the Walus case, as well as its acceptance of ludicrously fabricated evidence. What could be worse than an arm of federal government collaborating with representatives of a foreign government to frame innocent people? (A British documentary on the Demjuanjuk case which I've seen twice on the Arts and Entertainment channel thas covered this subject well.) Ryan's office should have been shut down long ago, and its activities investigated for illegalities. I hope you will take action.

Which reminds me. A few months ago it was reported that one or more law enforcement officers out West had been discovered working for the Anti-Defamation League of B'nai B'rith, illicitly gathering information on American citizens. The criminal activity on behalf of the ADL was said to be widespread. The FBI was investigating. This was obviously one of the most important news stories of the decade, and yet the media almost immediately fell silent on the subject, for reasons obvious to anyone who knows anything about the ADL, which I once confronted as an attorney in a lawsuit. Could someone in your office please let me know about the progress and status of those investigations, since the press won't report on it? Having seen discovery produced by the ADL, including memoranda from Israeli sources to the ADL, I have no doubt that the ADL's primary activity in this country is to respond to Israeli requests for information about U.S. citizens and organizations, and to "monitor" and take action to suppress any opinion or activity in this country which might be unfavorable to Israel. The favored weapon is, of course, the label of anti-Semitism...which I'm sure the ADL and its many monitors would apply to me, for example, if they got hold of this letter.

I can easily imagine the pressure you are under in the Demjanjuk matter as well as the ADL matter, but these are affairs of the greatest importance not only legally and constitutionally, but also from the viewpoint of morality and justice. Please resist the pressure and just let John Demjanjuk alone so that he can stay at home and live his life in peace after having about ten years of it stolen because of lies in which his own government collaborated. To work for his deportation because he told a falsehood of his own when he gained citizenship in this country thirty or forty years ago (I'm not sure what that falsehood, if any, was supposed to have been) would certainly be an example of highly selective prosecution, stemming from highly suspect motives. If he were guilty of anything he would never have been let out of Israel.

I would very much appreciate a reply, and I ask that whoever initially opens this will please give it to you personally since I no longer know how to reach you except at this address. I feel sure that you, as an attorney and a person sworn to uphold our system of justice, will take the right course. Thank you.

Honorable E. Clay Shaw, Jr. House of Representatives Washington, D. C. 20515-0922

Dear Congressman Shaw:

I am writing in further response to your October 28th communication on behalf of \_\_\_\_\_\_\_ Your constituent expressed concern over allegations of an illegal surveillance of American citizens by the Anti-Defamation League of B'nai B'rith using information provided by its contacts in law enforcement agencies.

Based on the considerable press coverage this issue has received, the concerns expressed by your constituent are certainly understandable. While the FBI, as a matter of policy, will not disclose information which could compromise a pending investigation, you may assure your constituent that all aspects of this case are being explored. The San Francisco Police Department has been most cooperative in this investigation. With its assistance, the FBI will actively seek prosecution of any individuals or any enterprise discovered to be involved in illegal activity in violation of Federal statutes.

Thank you for providing the FBI an opportunity to address your constituent's concerns.

Sincerely yours,

Dear Congressman,

Liste much

HON. E. CLAY SHAW

There is a very serious violation of the civil rights of perhaps tens of thousands of Americans that demands an immediate, in-depth congressional investigation.

The San Francisco Examiner has reported that the FBI and the San Francisco Police Department (SFPD) are conducting a criminal investigation of illegal surveillance of American citizens by the Anti-Defamation League (ADL) of B'nai B'rith, in collaboration with the ADL's contacts in police departments around the country. (See the Examiner article reproduced on the reverse side of this letter.)

The FBI and the SFPD raided the ADL's offices in Los Angeles and San Francisco and discovered that the ADL had in its possession illegally acquired files taken from more than twenty police departments in the state of California alone.

The evidence indicates that the ADL's illegal penetration of police departments is taking place on a national level.

There are names of some 12,000 Americans in the ADL files that are now in the custody of the SFPD alone. How many hundred thousand names are in ADL files around this country?

This sounds like the kind of thing that happens in a totalitarian police state.

The fact that the San Francisco investigation has already revealed that the ADL is conducting this operation on a national basis demands that a national Congressional inquiry be undertaken to get to the bottom of this scandal.

I am urging you to call for a full-dress Congressional inquiry into this scandal.

Please advise me as to what immediate action you will take to end this massive violation of American civil liberties.
